Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methods in Detail.

- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.

- Since 2007, the Global Attitudes Project has used an automated process to generate toplines. As a result, numbers may differ slightly from those published prior to 2007.

- Not all questions included in the Spring 2011 survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
