## Methodological notes:

- Survey results are based on a representative sample of the adult population of Taiwan. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Not all questions included in the Fall 2019 Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
