## Hispanics of Colombian Origin in the United States, 2010

An estimated 972,000 Hispanics of Colombian origin resided in the United States in 2010, according to the Census Bureau's American Community Survey. Colombians in this statistical profile are people who self-identified as Hispanics of Colombian origin; this means either they themselves are Colombian immigrants or they trace their family ancestry to Colombia. Colombians are the seventh-largest population of Hispanic origin living in the United States, accounting for 1.9% of the U.S. Hispanic population in 2010. Mexicans, the nation's largest Hispanic origin group, constituted 32.9 million, or 64.9%, of the Hispanic population in 2010.<sup>1</sup>

This statistical profile compares the demographic, income and economic characteristics of the Colombian population with the characteristics of all Hispanics and the U.S. population overall. It is based on tabulations from the 2010 American Community Survey by the Pew Hispanic Center, a project of the Pew Research Center.<sup>2</sup> Key facts include:

- **Immigration status.** Two-thirds of Colombians (65%) in the United States are foreign born compared with 37% of all Hispanics and 13% of the U.S. population overall. Most immigrants from Colombia (64%) arrived in the U.S. in 1990 or later. Less than half of Colombian immigrants (48%) are U.S. citizens.
- **Language.** A majority (59%) of Colombians speak English proficiently.<sup>3</sup> The other 41% of Colombians ages 5 and older report speaking English less than very well, compared with 35% of all Hispanics.
- **Age.** Colombians are younger than U.S. population and older than Hispanics overall. The median age of Colombians is 34; the median ages of the U.S. population and all Hispanics are 37 and 27, respectively.
- **Marital status.** Colombians are more likely than Hispanics overall to be married—47% versus 44%.
- **Fertility.** Less than one-in-ten (6%) Colombian women ages 15 to 44 gave birth in the 12 months prior to this survey. That was less than the rate for all Hispanic women—8%—and the overall rate for U.S. women—7%.

---

<sup>1</sup> Percentages are computed before numbers are rounded.

<sup>2</sup> The 2010 Census did not collect data on most of the characteristics tabulated in this profile.

<sup>3</sup> This includes Colombians ages 5 and older who report speaking only English at home or speaking English very well.

- **Regional dispersion.** Colombians are concentrated in the South (49%), mostly in Florida (34%), and in the Northeast (34%), mostly in New York (15%) and New Jersey (10%).
- **Educational attainment.** Colombians have higher levels of education than the Hispanic population overall. Some 32% of Colombians ages 25 and older—compared with 13% of all U.S. Hispanics—have obtained at least a bachelor’s degree.
- **Income.** The median annual personal earnings for Colombians ages 16 and older were \$25,000 in 2010; the median earnings for all U.S. Hispanics were \$20,000.
- **Poverty status.** The share of Colombians who live in poverty, 13%, is similar to the rate for the general U.S. population (15%) and lower than the rate for Hispanics overall (25%).
- **Health Insurance.** More than one-quarter of Colombians (28%) do not have health insurance compared with 31% of all Hispanics and 16% of the general U.S. population. Additionally, 13% of Colombians younger than 18 are uninsured.
- **Homeownership.** The rate of Colombian homeownership (49%) is higher than the rate for all Hispanics (47%) but lower than the 65% rate for the U.S. population as a whole.

### About the Data

This statistical profile of Hispanics of Colombian origin is based on the Census Bureau's 2010 [American Community Survey](#) (ACS). The ACS is the largest household survey in the United States, with a sample of about 3 million addresses. The data used for this statistical profile come from 2010 ACS Integrated Public Use Microdata Series ([IPUMS](#)), representing a 1% sample of the U.S. population.

Like any survey, estimates from the ACS are subject to sampling error and (potentially) measurement error. Information on the ACS sampling strategy and associated error is available at [http://www.census.gov/acs/www/methodology/methodology\\_main/](http://www.census.gov/acs/www/methodology/methodology_main/). An example of measurement error is that citizenship rates for the foreign born are estimated to be overstated in the Decennial Census and other official surveys, such as the ACS (see Jeffrey Passel. “[Growing Share of Immigrants Choosing Naturalization](#),” Pew Hispanic Center, Washington, D.C. (March 28, 2007)). Finally, estimates from the ACS may differ from the Decennial Census or other Census Bureau surveys due to differences in methodology and data collection procedures (see, for example, [http://www.census.gov/acs/www/Downloads/methodology/ASA\\_nelson.pdf](http://www.census.gov/acs/www/Downloads/methodology/ASA_nelson.pdf), <http://www.census.gov/hhes/www/laborfor/laborfactsheet092209.html> and <http://www.census.gov/hhes/www/poverty/about/datasources/factsheet.html>).

## Hispanics of Colombian Origin in the United States, 2010

	All	Hispanics	Hispanics of Colombian Origin

Citizen	286,889	37,457	645
Non-citizen	22,461	13,272	328
<b>Language (ages 5 and older)</b>			
Speaks only English at home	229,736	11,203	121
Does not speak only English at home	59,519	34,438	790
Speaks English very well	34,308	18,356	419
Speaks English less than very well	25,211	16,082	372
<b>Year of Entry (foreign-born only)</b>			
Before 1990	15,233	6,689	224
1990-1999	10,827	5,403	169
2000 or later	13,857	6,726	237
<b>Regional Dispersion</b>			
Northeast	55,361	7,022	334
New York	19,392	3,434	150
New Jersey	8,802	1,564	99
Midwest	66,976	4,671	54
South	114,866	18,315	481
Florida	18,843	4,253	330
Texas	25,257	9,533	51
West	72,147	20,721	104
California	37,349	14,092	70

<sup>1</sup>Unmarried women includes those who were never married, divorced, separated or widowed. <sup>2</sup>For detailed information on how poverty status is determined, see [http://usa.ipums.org/usa-action/variables/POVERTY#description\\_tab](http://usa.ipums.org/usa-action/variables/POVERTY#description_tab). Due to the way in which the IPUMS assigns poverty values, these data will differ from those that might be provided by the U.S. Census Bureau. <sup>3</sup>The household population excludes persons living in institutions, college dormitories and other group quarters.

Note: Analysis is based on the following number of observations: all 3,061,692; Hispanics 416,860; Hispanics of Colombian origin 8,235. The symbol \*\*\* indicates insufficient number of observations to provide a reliable estimate.
