

# Topline questionnaire

**Pew Research Center**  
**Mobile Technology and Its Social Impact Survey 2018**  
**May 13, 2019 Release**

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see the Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100% because they are based on unrounded numbers.
- Not all questions included in the Mobile Technology and Its Social Impact Survey 2018 are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
- Chapter 3 presents trend data drawn from a Global Attitudes survey conducted in 2014. For more on these data, please see the [report](#), its [topline](#) or its [methodology](#). Because of differences in the sampling plan and coverage of the survey, we do not trend this survey to the 2014 survey conducted in India.

	<b>Q15a. In general, do you think that access to mobile phones, the internet, and social media have made people more ____, less ____, or have they not had much impact either way? a. informed about current events</b>				
	<b>More informed about current events</b>	<b>Less informed about current events</b>	<b>Not had much impact either way</b>	<b>DK/Refused</b>	<b>Total</b>
<b>Colombia</b>	78	8	12	2	100
<b>India</b>	65	14	4	17	100
<b>Jordan</b>	93	3	3	1	100
<b>Kenya</b>	69	14	15	2	100
<b>Lebanon</b>	83	6	6	5	100
<b>Mexico</b>	76	9	13	2	100
<b>Philippines</b>	70	13	14	3	100
