

Topline questionnaire

Pew Research Center
Spring 2022 Global Attitudes Survey
October 13, 2022 Release

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Since 2007, Pew Research Center has used an automated process to generate toplines for its Global Attitudes surveys. As a result, numbers may differ slightly from those published prior to 2007.
- Surveys in the U.S. and Australia were conducted online. The U.S. survey was conducted on Pew Research Center’s American Trends Panel. The Australia survey was conducted on the Social Research Centre’s Life in Australia Panel. In both countries, many questions have been asked in previous surveys on the phone. Phone trends for comparison are provided in separate tables throughout the topline. The extent of the mode differences varies across questions; while there are negligible differences on some questions, others have more pronounced differences. Caution should be taken when evaluating online and phone estimates.
- Since 2020, the Italy survey has been conducted by telephone; surveys were conducted face-to-face in 2002 and 2007-2019.
- Since 2021, the Greece survey has been conducted by telephone; all prior surveys in Greece were conducted face-to-face.
- In 2022, the Malaysia survey was conducted by telephone. Prior surveys in Malaysia were conducted face-to-face. Due to this shift in mode and differences in past sample designs and weighting parameters, all previous trends in Malaysia are not directly comparable and have been omitted from the topline.
- Not all questions included in the Spring 2022 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
