

**PEW RESEARCH CENTER
2022 NATIONAL SURVEY OF LATINOS
Aug. 1-14, 2022
LATINO ADULTS TOTAL N=3,029
GENERAL PUBLIC TOTAL N=7,647¹**

Notes: All numbers are percentages unless otherwise noted. Percentages greater than zero but less than 0.5% are replaced by an asterisk (*). Rows/columns may not total to 100% due to rounding. This topline shows aggregated data for respondents from different samples. Responses to some questions were collected in previous surveys. For more information on the different samples, see the [methodology](#).

OTHER QUESTIONS HELD FOR FUTURE USE

Before 2019, all surveys of Hispanics by Pew Research Center were conducted by telephone. Phone trends that are comparable to those from surveys of Hispanics conducted online based on findings from a [mode effect study](#) are labeled as "trend for comparison." In these cases, readers can directly compare phone and online results over time. Phone trends that may not be comparable to online trends due to the change in survey mode or the lack of results from the mode effect study are labeled as 'trend for reference.' In these cases, trends from phone and online surveys are not comparable.

	Sample size	Margin of error at 95% confidence level
Total Hispanic respondents	3,029	+/- 2.7% points
<i>Dem/Lean Dem</i>	1,832	+/- 3.4% points
<i>Rep/Lean Rep</i>	974	+/- 4.7.% points
Registered voters	2,004	+/- 3.3% points
<i>Dem/Lean Dem</i>	1,209	+/- 4.2% points
<i>Rep/Lean Rep</i>	729	+/- 5.4% points
