Pew Research Center
Spring 2025 Global Attitudes Survey
December 1, 2025 Release

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, refer to the Methodology section and our [international survey methods database](#).
- Percentages may not total 100% due to rounding. The topline “total” columns show 100% because they are based on unrounded numbers.
- We conducted both telephone and face-to-face surveys in Hungary and Poland in 2024. Data in our 2024 reports was from the face-to-face survey. Moving forward, 2024 trends will reference data from the telephone survey, where available, and may differ from earlier reports.
- We have changed our survey mode in several countries at certain points. For some mode shifts, we may provide trends from another mode for comparison in separate topline tables. The extent of the mode differences varies across questions; while there are negligible differences on some questions, others have more pronounced differences. Caution should be taken when comparing across modes. Some of these changes include:
 - Surveys in the U.S. and Australia, which are now conducted primarily online, rather than by telephone.
 - Surveys in Hungary and Poland, which are now conducted by telephone, rather than face-to-face.
- Not all questions included in the Spring 2025 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
