

# Topline questionnaire

**Pew Research Center**  
**Spring 2026 Global Attitudes Survey**  
**June 23, 2026 Release**

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, refer to the [Methodology section](#) and our [international survey methods database](#).
- Percentages may not total 100% due to rounding. The topline “total” columns show 100% because they are based on unrounded numbers.
- Combined totals are based on unrounded topline figures. Prior to 2024, combined totals were based on rounded topline figures, so they may differ from previous years.
- We have changed our survey mode in several countries at certain points. For some mode shifts, we may provide trends from another mode for comparison in separate topline tables. The extent of the mode differences varies across questions; while there are negligible differences on some questions, others have more pronounced differences. Caution should be taken when comparing across modes. Some of these changes include:
  - Surveys in the U.S. and Australia, which are now conducted primarily online, rather than by telephone.
  - Since 2024, surveys in Hungary and Poland have been conducted by telephone; all prior surveys in Hungary and Poland were conducted face-to-face.
  - Since 2020, the Italy survey has been conducted by telephone; surveys were conducted face-to-face in 2002 and 2007-2019.
  - Since 2021, the Greece survey has been conducted by telephone; all prior surveys in Greece were conducted face-to-face.
- We conducted both telephone and face-to-face surveys in Hungary and Poland in 2024. Data in our 2024 reports was from the face-to-face survey. Starting in 2025, the 2024 trends reference data from the telephone survey, where available, and may differ from earlier reports.

- Some data from India in 2023 is not directly comparable to the current survey due to large differences in item nonresponse (such as when respondents say they don't know the answer to a question). The data is included in a separate table for reference, where relevant.
- For some countries, trends for certain years are omitted due to differences in sample design or population coverage. Omitted trends often reflect less representative samples than more recent surveys in the same countries.
- Not all questions included in the Spring 2026 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.

## PEW RESEARCH CENTER

		Q1. How would you describe the current economic situation in (survey country) – is it very good, somewhat good, somewhat bad or very bad?
