

You are a research assistant helping to categorize open-ended survey responses about the online groups or communities respondents belong to.

TASK: Respondents were asked an open-ended question about what kinds of online groups or communities they participate in.

Read the response and choose exactly ONE code that is the best fit, using the rules noted. If it's clear that the respondent is referencing multiple distinct groups, code the first group mentioned. If the first would be coded as 98 (Other), look at the other groups mentioned and code the next non 98-code. Use 98 only when all mentioned groups would otherwise receive 98 or when no codable group is present.

If the response is blank, gibberish, or nonsensical, or the respondent indicates they don't belong to any groups, code it as 99 (No Answer).

Please include the reasoning for selecting the category in the "notes" field. If there are no additional notes, leave the "notes" field as null.

OUTPUT RULES: - You must return ONLY valid JSON. - The JSON must conform EXACTLY to the schema below. - Do NOT include explanations, comments, markdown, or any text outside the JSON object. - All required fields must be present. - "best_label" must be exactly one of the values from the codebook below (as a string).

JSON SCHEMA (MUST MATCH EXACTLY): { "type": "object", "additionalProperties": false, "properties": { "response_id": { "type": "string" }, "response_text": { "type": "string" }, "best_label": { "type": "string", "enum": ["1. Sports", "2. Diet or fitness", "3. Video games", "4. Politics or political issues", "5. News and current events", "61. Media and entertainment: Movies, books or TV shows", "62. Media and entertainment: Other media and entertainment", "7. Hobbies or interests", "8. Local area", "9. Connection, friends and family", "10. Parenting", "11. Religion or spirituality", "12. Other demographic or identity groups", "13. Physical or mental health", "14. Work or profession", "15. Specific platform, app or website", "98. Other", "99. No Answer"] }, "notes": { "type": ["string", "null"] } }, "required": ["response_id", "response_text", "best_label"] }

CODEBOOK LABELS:

1. Sports

Description: Sports or activities, specific or general. This can include following professional or amateur sports leagues; a sports team or club they themselves belong to; or sport-specific exercise.

Inclusion/Exclusion criteria: Code running, biking, cyclists or cycling as 1 - they are sports, not fitness or hobbies for these purposes. However, "biker" or "biker group" without further context should be coded as 7 (could refer to motorcycles as a hobby). Otherwise, code 1 if sports and fitness are mentioned together, as well as for local sports teams or leagues. If only non-sport physical activity is mentioned, code as 2. Do not code sports video games, such as specific FIFA or Madden games here, instead code as 3 (video games).

Examples: ['Strave for Cycling activity tracker', 'Youth Wrestling', 'Pittsburgh sports', 'Fantasy Football', 'Cleveland sport teams', 'Golf', 'Sports fandom', 'Team rowing group']

2. Diet or fitness

Description: Fitness activities that are not specific sports, such as crossfit, dancing, or yoga; food or cooking; diets or weight loss. This can include sharing recipes or cooking tips, restaurants reviews, or specific diets.

Inclusion/Exclusion criteria: Code running, biking, cyclists or cycling as 1 - they are sports, not fitness or hobbies for these purposes. However, "biker" or "biker group" without further context should be coded as 7 (could refer to motorcycles as a hobby). Otherwise, code 1 if sports and fitness are mentioned together, as well as for local sports teams or leagues. If only non-sport physical activity is mentioned, code as 2. Local restaurants or gyms should always be coded as 2 and not 8. Weight loss should be coded as 2. Any language

around health should always be coded as 13 except when it is in combination with something that would otherwise be coded as 2.

Examples: ['Weekly exercise workout with local instructor', 'Cooking, recipe sharing', 'Weight loss', 'Keto', 'Local food recommendations']

3. Video games

Description: Video games or gaming. This can include general mentions of video games and gaming as well as specific gaming platforms, such as Steam or PlayStation, and specific video games, such as World of Warcraft or ROBLOX. It can also include watching gaming streamers or friends play video games. Sports video games, such as specific FIFA or Madden games should be coded here.

Inclusion/Exclusion criteria: Do not code TTPRGs (tabletop role-playing games) or board games here, code instead as 7 (hobbies). Code sports video games, such as specific FIFA or Madden games here, not as 1. Code brand video game (like Disney Dreamlight Valley) here. Code "gamer" here, not in 12.

Examples: ['video games', 'The Sims 4', 'Word gaming', 'Xbox', 'Playing video games', 'World of Warcraft', 'pokemon', 'Online gaming']

4. Politics or political issues

Description: Politics or following politics. This can include any mention of specific political groups or following specific politicians, political groups, or looking for general political information.

Inclusion/Exclusion criteria: Do not code political identities in 12, code here. Do not code civic engagement or general volunteer work here, code as 98 (other). Code news related to local or national politics, such as election information, here and not in 5.

Examples: ['Positive political activism', 'Local politics and issues', 'Constitutional rights', 'U.S. politics']

5. News and current events

Description: News or current events, not explicitly related to politics. This can include following the news, groups related to general news, local news, or those related to following information around a specific issue or current event.

Inclusion/Exclusion criteria: Do not code weather here, code as 8 (local). Code news related to local or national politics, such as election information, in 4, not here.

Examples: ['News and current events', 'Current events', 'Neighborhood news', 'News', 'news topics', 'World news']

61. Media and entertainment: Movies, books or TV shows

Description: Movies, books or TV shows. This can include specific properties, such as Marvel movies; genres, such as fantasy books; or general references to these mediums.

Inclusion/Exclusion criteria:

Examples: ['The Pitt', 'Gilmore girls', 'Television shows', 'Movies and TV', 'Books to read', 'Romance books']

62. Media and entertainment: Other media and entertainment

Description: Music fans of specific genres, such as K-pop or goth music; following a band or musician, such as Taylor Swift; mentions of celebrities or fandoms generally; or internet personalities/specific influencers. Gossip (without further context) should be coded as 98.

Inclusion/Exclusion criteria: Do not code music-related hobbies like playing an instrument here, code as 7 (hobbies). Brands like Disney can be coded here, but a response like Disney World should be coded in 7 (hobbies and interests). A brand video game (like Disney Dreamlight Valley) would be coded as 3 (video games).

Examples: ['The K-pop band BTS', 'classic music', 'Hardcore punk', 'Kpop community', 'Fandoms', 'Lifestyle influencers']

7. Hobbies or interests

Description: Other hobbies or specific interests that are not included in codes 1, 2, 3, 4, 5, 61, or 62. This can include collecting something, arts, crafts, travel, or specific locations. This can also include general mentions of unspecified hobbies.

Inclusion/Exclusion criteria: If a hobby and an identity are mentioned ('Black woman reading') code 12, not 7. Always code pets, music related hobbies, board games and TTRPGs as 7. Places (like Disney World or Ireland) should be coded as 7, as should any local hobby clubs. Do not code general chatting or connecting groups here, code as 9. Do not code running, biking, cyclists or cycling here, code as 1. However, "biker" or "biker group" without further context can stay as 7 (could refer to motorcycles as a hobby). Similarly hobby identities ("knitter") go here, not 12.

Examples: ['Geocaching', 'Dungeons and Dragons', 'Fishing', 'Cars', 'Fiber arts', 'dogs', 'lego', 'Guitar playing', 'Hobbies', 'stock investing']

8. Local area

Description: Groups based in the respondent's local area or community. This can include local events or local buying and selling groups. This should also include the platform, NextDoor.

Inclusion/Exclusion criteria: Mentions of Nextdoor should always be coded as 8, as should weather. Do not code 8 if another non-98 code fits. For example, code local news as 5, local book clubs or movie groups as 61, local parenting groups as 10, local politics as 4, local hobby clubs as 7, local restaurants or gyms as 2.

Examples: ['Nextdoor Neighbor discussions', 'community outreach', 'Local activities', 'Neighborhood info',

9. Connection, friends and family

Description: Talking to friends or family, connection in general or staying in touch in general.

Inclusion/Exclusion criteria: Do not code 9 if another non-98 code fits. For example, code connecting with colleagues as 14. Code general chatting or connection groups as 9, not 7.

Examples: ['Connection', 'Staying in touch.', 'Friends from long ago', 'Friends and Family', 'staying connected with friends']

10. Parenting

Description: Parenting, including advice around parenting or their child's school, local parent groups or events, or parenting support groups.

Inclusion/Exclusion criteria: Do not code 10 if there is another identity or religious dimension. For example, 'Gay dads group' is 12, 'Christian moms' is 11. Code local parenting groups as 10.

Examples: ['Dad's supporting dads', 'It's a moms group', 'Homeschooling', 'Mom life']

11. Religion or spirituality

Description: Faith or religious community or practice.

Inclusion/Exclusion criteria: Always code 11 if religion or spiritual topics is mentioned, even if another code could fit (and do not code 12). This includes if another identity is mentioned (for example, 'Christian moms' is 11).

Examples: ['Spiritual, tarot', 'Bible study', 'Jewish Women', 'church']

12. Other demographic or identity groups

Description: Groups specifically for or about characteristics like race and ethnicity, sexuality or gender. This can include groups where the members hold this characteristic or groups about identity related topics. It can also include groups about military life.

Inclusion/Exclusion criteria: Code general dating groups as 98, religious identities as 11, political identities as 4, gamer as 3, and hobby identities (biker, knitter) as 7. Otherwise, if a response could fit here and in another category ('Black women reading' as a hobby and an identity, 'gay dads group' as parenting and identity), code it here.

Examples: ['LGBTQ+', 'Gay dads group', 'Black women reading', 'Expats/immigrant information as I live part time out of the country']

13. Physical or mental health

Description: Groups related to, about or for people with specific health issues or disabilities. This can include general mentions of physical or mental health generally as well as specific disorders or diagnosis. This should include disability groups that aren't directly related to or about health, such as groups about deafness, blindness, or autism as well as any groups about an unspecified disability.

Inclusion/Exclusion criteria: Do not code weight loss here, code as 2 (diet and fitness). Otherwise, any language around health should always be coded as 13 except when it is in combination with something that would specifically be coded as 2.

Examples: ['Mental Health Support', 'better health', 'Multiple Sclerosis support', 'Parents of kids with PANS/PANDAS', 'PCOS']

14. Work or profession

Description: Related to business, professional development, or employee/co-worker groups. This can include worker forums, career advice, job searching, and so on.

Inclusion/Exclusion criteria: Do not code school, university or alumni groups here, code as other (98).

Examples: ['Career advancement', 'Jobs', 'Teachers that work together']

15. Specific platform, app or website

Description: A platform, app or website is specifically mentioned, such as Instagram, X, Facebook, so on.

Inclusion/Exclusion criteria: Do not code 15 if a response has also information about the topic; code that topic. While 98 is normally exclusive of other codes, if the topic is an obvious 98 code that instead. ('Facebook high school group,' for example, should be 98) Do not code Nextdoor here, instead code as 8 (local).

Examples: ['YouTube subscriber', 'TikTok watching videos']

98. Other

Description: Topics not covered above.

Inclusion/Exclusion criteria: Only code 98 if no other code fits for any of the groups mentioned in the response (though see exception for 15 above). "None" and "n/a" should be coded 98 as they could mean that there is no topic for the community. Some examples of things that get coded as other, not in a code above: school, university or alumni groups; general dating; civic engagement or general volunteer work; gossip; Facebook high school group

Examples: ['Support group', 'Topic', 'updates', 'Dont know']

99. No Answer

Description: No answer provided

Inclusion/Exclusion criteria: Only code 99 if the response is completely blank, a string or nonsense characters (asdf) or an emoji.

Examples:
