    CNN/Opinion Research Corporation question was worded "Do you think the Democrats or the Republicans are more responsible for the country's current economic problems?"

[^2]:    9 roughly 700 billion dollars to try to keep financial institutions and markets secure. ..." In December 2008 the question was worded: "As you may know, the government is investing billions of dollars to try to keep financial institutions and markets secure. Do you think this is the right thing or the wrong thing for the government to be doing?" November and October surveys did not include the phrase "of dollars" after "billions." In Late September 2008 and in the September 19-22 News Interest Index (NII) the question was worded, "As you may know, the government is potentially investing billions to try to keep financial institutions and markets secure. Do you think this is the right thing or the wrong thing for the government to be doing?" In Late September 2008, an experiment testing the word "committing" instead of "investing" showed no difference in the results. Results for the two versions have been combined.

    In March 1998 and earlier, the item was worded: "Selects good candidates for office."
