- Some 6% of Kansas eligible voters are Hispanic, the 20th largest Hispanic statewide eligible voter share nationally. New Mexico ranks first with 40%.

¹ Eligible voters are defined as U.S. citizens ages 18 and older. Eligible voters are not the same as registered voters. To cast a vote, in all states except North Dakota, an eligible voter must first register to vote.

² The terms "Hispanic" and "Latino" are used interchangeably. References to other races and ethnicities are to the non-Hispanic components of those populations.

³ This statistical profile of eligible voters is based on the Census Bureau's 2014 [American Community Survey](#) (ACS). The ACS is the largest household survey in the United States, with a sample of about 3 million addresses. The data used for this statistical profile come from the 2014 ACS Integrated Public Use Microdata Series (IPUMS), representing a 1% sample of the U.S. population. Like any survey, estimates from the ACS are subject to sampling error and (potentially) measurement error. More information is available on [ACS sampling strategy](#) and [associated error](#).

- About 38% of Hispanics in Kansas are eligible to vote, ranking Kansas 37th nationwide in the share of the Hispanic population that is eligible to vote. By contrast, 78% of the state's white population is eligible to vote.
