Latinos in the 2016 Election: Minnesota

This profile provides key demographic information on Latino eligible voters¹ and other major groups of eligible voters in Minnesota.² All demographic data are based on Pew Research Center tabulations of the U.S. Census Bureau's 2014 American Community Survey.³

Hispanics in Minnesota's Eligible Voter Population

- The Hispanic population in Minnesota is the 28th largest in the nation. About 276,000 Hispanics reside in Minnesota, 0.5% of all Hispanics in the United States.
- Minnesota's population is 5% Hispanic, the 36th largest Hispanic statewide population share nationally.
- There are 96,000 Hispanic eligible voters in Minnesota—the 29th largest Hispanic statewide eligible voter population nationally. California ranks first with 6.9 million.

- Some 2% of Minnesota eligible voters are Hispanic, the 39th largest Hispanic statewide eligible voter share nationally. New Mexico ranks first with 40%.

¹ Eligible voters are defined as U.S. citizens ages 18 and older. Eligible voters are not the same as registered voters. To cast a vote, in all states except North Dakota, an eligible voter must first register to vote.

² The terms "Hispanic" and "Latino" are used interchangeably. References to other races and ethnicities are to the non-Hispanic components of those populations.

³ This statistical profile of eligible voters is based on the Census Bureau's 2014 [American Community Survey](#) (ACS). The ACS is the largest household survey in the United States, with a sample of about 3 million addresses. The data used for this statistical profile come from the 2014 ACS Integrated Public Use Microdata Series (IPUMS), representing a 1% sample of the U.S. population. Like any survey, estimates from the ACS are subject to sampling error and (potentially) measurement error. More information is available on [ACS sampling strategy](#) and [associated error](#).

- Some 35% of Hispanics in Minnesota are eligible to vote, ranking Minnesota 45th nationwide in the share of the Hispanic population that is eligible to vote. By contrast, 79% of the state's white population is eligible to vote.
